

Endo Rentals

Reduce capital costs and accelerate time-to-market

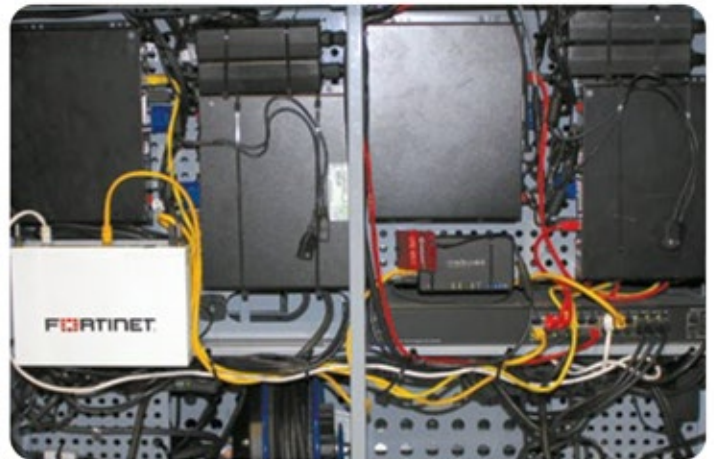

Touchscreen computers

Endo maintains a fleet of thousands of touchscreen devices, from handheld tablet computers to big screen touchscreens.

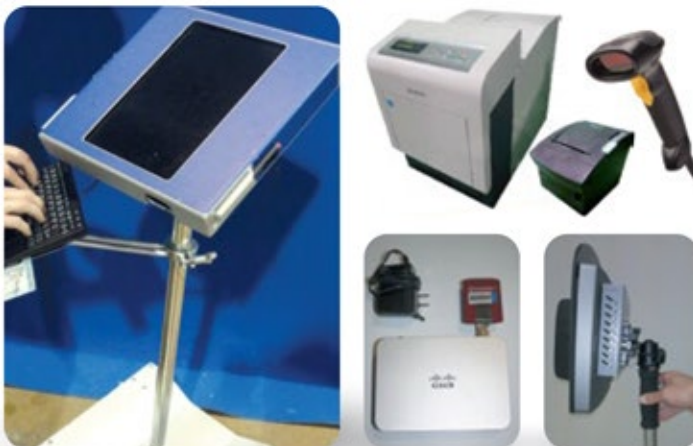

Networking

LAN, WiLAN and cellular systems to support any number of touchscreen devices at a high level of security and performance.

Peripherals

Peripherals include laser printers, receipt printers, photo printers, card readers, barcode readers, signature pads, cameras, proximity detectors, and gaming input devices.

Digital signage

Small, medium and large screens add visual impact to any event, displaying a variety of content including user-generated content and online content.

Note that our equipment is optimized to work with our software and our NOC. We generally do not rent equipment on a standalone basis.

Photography

Low to high quality, picture postcard, email picture postcard, greenscreen/chroma key, lighting, and software are all part of maximizing participant experience.

Fun games

Sometimes you need a game to attract more participation. Choose from a variety of digital and physical games including: plinko, spin & win, vault, ball toss, or let us build a new one for you.

Event fixtures

Flooring, carpeting, seating, displays, signage, storage, holiday fixtures, treasure chests... you name it, we probably have it.

RVs

Take your Endo program to outdoor events, with Endo RVs. Interiors have been converted to customizable event space, with generators, heavy duty climate control, and two separate entrances/exits.

Note that our equipment is optimized to work with our software and our NOC. We generally do not rent equipment on a standalone basis.
